- o Proper use and maintenance of SFST Field Arrest Log.

#### CONTENT SEGMENTS

- A. Procedures
- B. Practical Exercise (OPTION TWO ONLY)
- C. Session Wrap-Up

#### LEARNING ACTIVITIES

- o Instructor-Led Presentation
- o Video Presentations
- o Instructor-Led Discussion

## "TESTING SUBJECTS" PRACTICE: SECOND SESSION

During this session, if you are attending the OPTION TWO version of this training program, you will be administering the SFSTs to other participants and viewing videoed volunteers who have consumed alcoholic beverages. Some of these volunteers will have BACs above 0.08. Others will be below that level. You will carefully note and record the volunteers' performance, and attempt to distinguish those "0.08 and above" from those "below 0.08".

You will record your results on the SFST Field Arrest Log. Participants trained using this option must continue to maintain this log following their training.

# SFST FIELD ARREST LOG
